About The Author and Updates

Hi I'm Zara, I live in Weston-super-Mare, a small town on the Coast of the UK, where the Bristol Channel meets the Atlantic Ocean.

I've created this eBook as a quick tips guide for Yuwie users.

This is **version 1.** of this ebook, to check for updates visit my [Yuwie Profile](#) where you will find the latest copy and / or next in the series to collect.

Any Suggestions ? feel free to leave a comment on my profile or message me via the Yuwie system.

Table of Contents

<u>Chapter 1 – Tips 1-5</u>	4
<i>Some Basics</i>	
<u>Chapter 2 – Tips 6-10</u>	5
<i>More Advanced</i>	
<u>Chapter 3 - Extras</u>	6
<i>Services, Products and Freebies</i>	

Chapter 1 - Basic Tips

1. Profile Photo

Add a recent photo, head and shoulders and clothed! You will get more friend invites and general contact with others if you have a friendly picture of your face on your profile to greet people.

2. The Shout Box

Add a copy of your affiliate banner code in the 'shout box' - inviting people to join Yuwie by clicking on your banner, that way if people visit your profile that aren't members, they will join up via your banner and become your referral member and part of your team.

3. Join Clubs

The clubs are there so you can meet with other Yuwie members and share tips and advice, remember you don't have to join *every* business opportunity you are offered by others, instead, if you spend time focusing on *what the club is about*, and making it a *community* you will stand out from the rest and be noticed, and so will YOUR business opportunity.

4. Your Yuwie Blog

Your blog is another place you can express yourself, give advice and share products and services that people might be interested in. Pick a topic that interests people (a niche that has a market) and write about that or use some PLR articles that you have the rights to use and add an affiliate link at the end of each article.

5. Comments

If someone visits your page on Yuwie remember to visit their page back and leave a comment too, it counts towards your page views and it's friendly! **Note:** Don't 'spam' your friends' comment pages with business banners and sales copy – instead, invite them to your club on Yuwie or to visit your Yuwie blog, the idea is that people choose to visit you and your business, you don't force it on them!

Chapter 2 - Advanced Tips

6. Join [Digg](#) and [Delicious](#)

You will notice these two FREE bookmarking sites next to your blog, I recommend you Delicious all your Yuwie blogs as this activity is picked up by other bookmarking services and increases visitors, it is best to get a friend or team mate to digg your blog – if they think it is a good article. Add me as a friend and send me your shouts, I digg articles about once a week I delicious daily.

7. Join [Facebook](#) and [Twitter](#)

Again, joining these BIG FREE networks will increase your web presence. You can add add your customized Yuwie referral links to these sites and your Yuwie blog RSS. Automation of fresh content brings visitors.

Note: don't spam messages to people on these networks or you will be banned

Invite people to view your latest blog article or club update – you can get your Yuwie posts automatically added to your facebook wall or twitter – visitors and friends can see your wall updates.

8. Create a Widget with your Yuwie blog RSS

Creating widgets is REALLY simple and means you can add your Yuwie blog to many social networks – increasing your viewers, potential referrals and page views. See: [Widget Box](#) and [Spring Widgets](#)

9. Add A Free Visitor Tracker to your profile shout box

I use a flash based country location tracker, so I know which country people are coming from that visit my profile, it's basic but looks nice and gives a rough idea of who is visiting your page: [Flag Counter](#)

10. Add A Free Chat Room

Again Flash based widgets work in the shout box, you can get a free & fun chat room from XAT see my larger example: [Free Xat Chat](#)

Chapter 3 Extras

Some other Tools and Services you might find useful:

3 cash machine

This is a “Yuwie friendly” money making system I recommend if you are unsure what on-line Business you are interested in – as it makes use of Yuwie (a social network), GDI (a web hosting package) and a number of traffic exchanges and safe lists that you might already belong to.

- Combined these method's deliver results that others have used to move forward in their business and make money.

Orange Leads

You need a source of business leads, Orange leads offers Free Leads, simple!

Other marketer's You might find useful to listen to / learn from :
